FOREWORD

The rare popularity achieved by FORD cars is based on the many years of impeccable service that they have brought to owners everywhere, and for which service it can be considered that Ford is now known as "the most respected car in the world".

TODAY, the dominant position of Ford cars in the automotive world is more undisputed than ever before, and the ever-increasing production shows the permanent strengthening of this dominant position.

On the FOLLOWING pages, with pictures and explanations, these special features of the construction of Ford cars are presented, on which the globally highly valued characteristics of these cars, reliability, elegance, comfort, are based.

FORD MOTOR COMPANY OF FINLAND O/Y

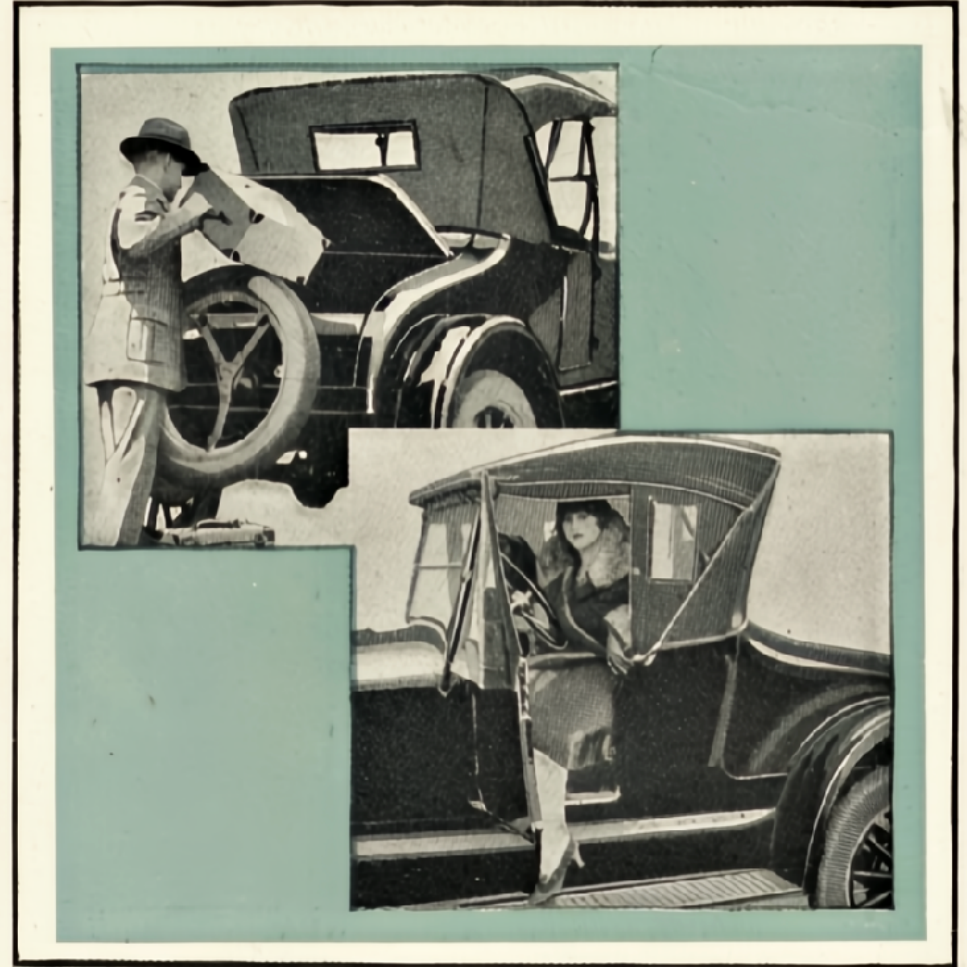

HELSINKI

RUNABOUT

FORD Runabout is immediately impenetrable to it, who wants to get a light, beautiful and certainly reliable car. The small purchase and usage costs have worried this car many friends, especially among businessmen and motor sports enthusiasts.

SPECIAL FEATURES and ENHANCEMENTS

feet The UNABOUT Travel Storage has a capacity of 13 cubic and can hold packages up to 16 inches high. He is 42 inches wide and 44 inches tall. The side parts that close tightly and open together with the door make driving pleasant, whatever the weather.

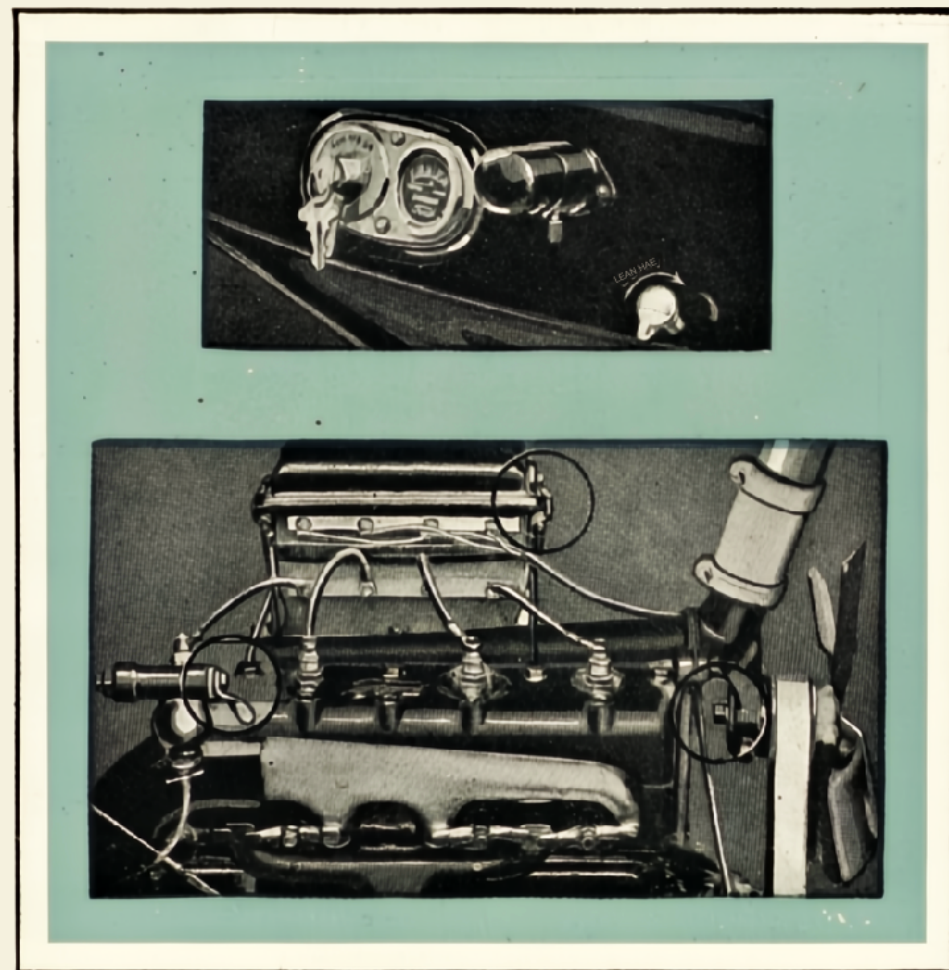

With VARATE seats and a low, elegant car-A basket, the Ford Touring for five people offers its owner practicality and fun, suitably combined. Effective brakes and a large circular steering wheel make driving easy and sure. The front seat is placed backwards, and thus there is enough space for the driver's legs.

The TOURING car has four doors, so passengers can get in and out of the car easily and comfortably. The tightly closed side parts open together with the doors and make the car a pleasant vehicle even in stormy weather and freezing cold. The light and strong outer rubber can be tightened in place with one hand movement, i.e. rolled up.

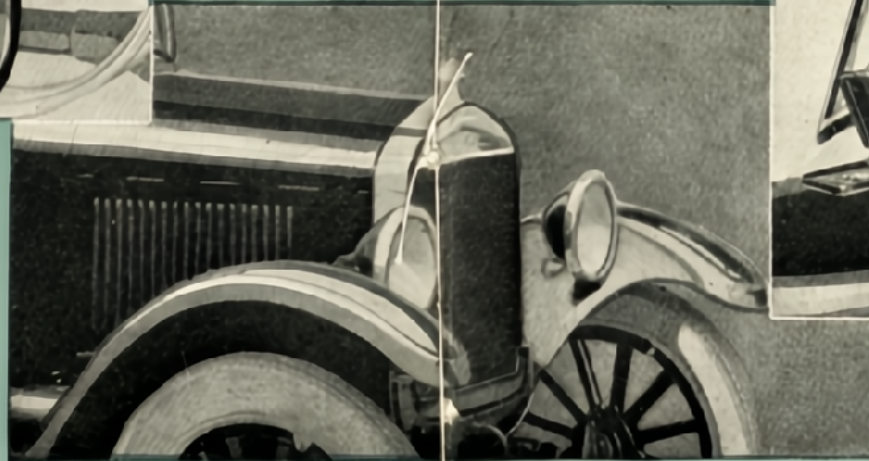

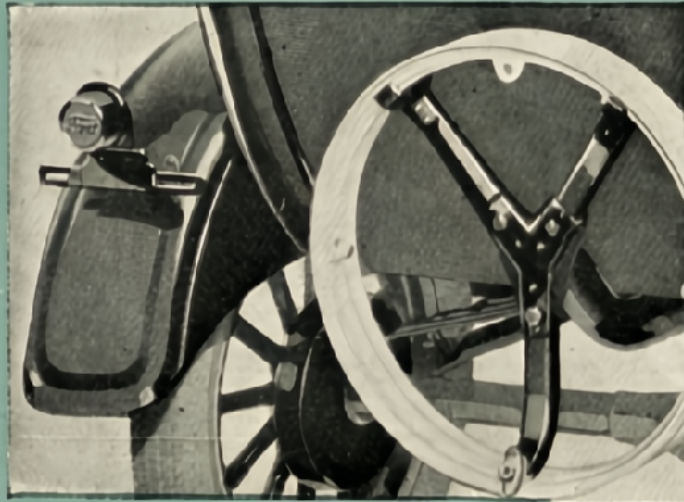

K GEARBOX brake belt width is now $1\frac{3}{4}$ inches, so stopping is still firm and smooth. All brake belts are new, equipped with a detachable lock, so you can put the footrests in their place if necessary.

PARADE TABLE APA has been reorganized with practicality and rider comfort in mind. The ammeter, light and ignition buttons are arranged in one group. The choke valve button also regulates the operation of the needle valve, thus greatly increasing comfort.

The INDUCTION appliance drawer and fuel filter are conveniently located and easily accessible. The unique ventilation system makes it easy to tighten the fan belt if it should happen to loosen.

Special features that promote ENJOYMENT, niceness and M practicality. Large I and strong brakes ensure safe driving in all situations. The hard and simplified spare wheel handle, intended for both the steel coil wheel and the steel pin, emphasizes the speed of the car's appearance. The left fender has a combined tail and stop lamp and number plate. Let it be said that the fenders are now wider than before.

K The engine cover of the RIGHT Ford models is raised higher, and it has a beneficial effect on the elegance and beauty of the car, the hallmarks of all Ford cars. The radiator and lamp frames of all cars are nickel-plated. The air holes, which the engine cover is almost full, take care of the necessary air exchange.

K The fuel tank on the UPEE, Tudor Sedan and all open cars is under the engine cover and can easily be filled from the outside. The comfort of the Tudor Sedan and Coupe is enhanced by a sunshade and a windshield made of a single square of glass. Standard equipment on all Ford cars includes a windshield wiper and a reversing mirror.

KUPEE is a rare nice car. It is available in several special colors, while the colors of the paint and upholstery are in harmony. Passengers have a wide view of the road and surroundings through the large windows and windshield made of a single glass square.

The **FORD Coupe** luggage compartment is water and dust resistant. Its capacity is about 19 cubic feet. The shelf behind the seats increases the space of the car, as it is also a good storage place for small packages. The well-upholstered seat is rarely wide and pleasantly tilted backwards.

TUDOR Sedan is the perfect closed car for the family. It comfortably fits 5 people and is extremely economical in terms of maintenance and utility costs. He has several special colors and the exterior and interior colors are still well coordinated. Standard equipment includes a sunshade, windshield dryer, reverse mirror, instrument panel lamp and a nickel-plated radiator cover.

in UDOR Sedan has been built with the greatest possible driving pleasure mind. The front seats are comfortably padded and can be adjusted in such a way that there is more space for the legs. Both front seats can be folded forward so that access to the rear seats is free from both sides.

the The subtle and pleasant colors of UTOKORV fully highlight curved, beautiful contours of the A Fordor Sedan. The car is covered with cloth, the color of which is the same as the color of the seats, the carpet is grey-reddish. The window shades are gray silk.

The handsome interior of FORDOR Sedan is worthy of its beautiful appearance. The large window panes made of solid glass slide easily up and down as desired. The manually available circuit breaker adjusts the ceiling light comfortably.
